OBSERVATIONS

INSPECTION AND SAMPLING PLACE: Euroamérica Terminal, Campana, Buenos Aires Province

Port Inspector Juan Cirilo Goñi (Mat 47617)

Working Methodology

From 6:00 a.m. until the end: The inspector takes samples from the trucks using measuring instruments and evaluates the quality of the soybeans. All information is recorded on Form F14. at the end of the last truck, the merchandise is divided (mixed) on the same cot and 3 (three) samples of approximately 3 kg each are formed. Each sample is identified with its respective label and seal.

Sample 1, Liaf Control, sample 2 Laboratory (analysis) and sample 3 EUROAMERICA.

The trucks unload at Warehouse 4 in Euroamérica.

Liaf Control supervises the unloading of each truck. The objective is to verify the condition and cleanliness of the warehouse, as well as the proper operational tasks for proper unloading.

The weight and receipt of each weighing are recorded daily on Form F14.
